AWAKENING  
OF AN ANGEL

VOL 1

THE PURPOSE OF  
THIS MAILBAG  
FILE

RAYMOND WILLIAM SHORE

## THE PURPOSE OF THIS MAIL-BAG

For those readers who have not read the introduction of the book.

THE AWAKENING OF AN ANGEL, STUDENT SHELLY,

You need to read what I typed, as it is one of the main reasons for having a readers mail notice-board.

When I first decided to record my classes, it wasn't for the purposes of giving the world an adventure book, but a FREE series of text books for everyone including my students, so that they could use the recorded material to run their own development classes.

So when I first started releasing the blogs of my books onto the web, every 3 months, I knew that the release frequency might change, because the primary reason for when I would release them to the world was contingent of the acceptance and use in development classes.

Because of the controversial content of volumes 3, 4, 5 and 6, I asked my Guides if they wanted me to delay releasing these volumes. And they said,

*“Yes, until the population of the world have accepted the benefits of volumes 1 and 2 to our criteria of support of you, then releasing further volumes too soon, may have a negative reaction affecting the acceptance of volumes 1 and 2. We will let you know when the time is right to continue releasing further volumes.*

*You have presented to the world a table full of cakes with their recipes, until your readers start tasting the cakes, and find that they are delicious, and start using the recipes and spreading the word that they work, then the acceptance of you and the text books will be strong enough to out-way any negative reaction to the controversial nature of the next four volumes.*

*Your first website is eventually going to become so busy that in case it crashes we want you to eventually release volumes 3, 4, 5 and 6 on another websites, and the previous two volumes will also be found on this new website, in case your first website is down.”*

I will announce this website title when the time is right, and release Part 1 of volume 3 on it, when I know when to release it.

Volume 3 is the record of approximately three months of classes and past life therapy sessions of 10 students, 1353 pages, where I and five students experienced, mostly with each other's past lifetimes, 144 past lifetimes. I became aware of 38 of my own.

As a team of incarnating spirits our past lives consisted of actions which had a more immediate influence over millions of people, works of reform, art, music and inventions, to help show the link between one past life to the next. My past lives role was mostly the recorder of events, or as someone else put it, the pen is mightier than the sword, which had another influence over coming generations.

The purpose of this website isn't religious or evangelical. It has not got a religious focal point, like transcendence, or living life to the dictates of any religion.

Its primary purpose is to help readers or student's to firstly set them free of any conditioning, beliefs, influences, or emotions which are holding them back from being guided by their own higher-consciousness, who will help them in whatever direction, interest, or activity their conscious mind desires to pursue.

Depending on the level of what the conscious mind can accept, each person's higher-self will guide the conscious mind into experiences for the spiritual growth of the individual.

If the conscious mind has a limited desire, based on the limited learned or conditioned awareness, the higher-self arranges experiences which may guide the conscious mind in another direction, which is most likely the direction of spiritual growth that the spirit chose, before it incarnated into the baby, at the right astrological time, with the right name vibration.

Every reader or student is on their own path of discovery or purpose. For some it is straight and focussed, and maybe, like an Astrologer, Numerologist, Medium, or psychic.

But for other's one vocation gives the individual a staircase to support their feet, leading to another floor in our building of our own spiritual growth: like I started as an Astrologer/numerologist.

One of the purposes of these books is to show the many other floors of this multi-story building of spiritual growth.

I know that those readers who have read the first two volumes understand this, so now we come to the crux of this blog.

I have been guided to ask if any reader who wishes to share their reaction to reading these volumes with other readers, for the purposes of helping other readers to accept their own reactions to these volumes. Or your reactions may have helped you recognise your own experiences similar to my students.

If you have gone on any of the meditations, and wish to share your experiences, and channelling, which has helped you with your own spiritual development, this will also help other readers to accept that they also can use the meditations and exercises for their own spiritual growth.

Also for those sceptics who may think that all my books are a creation of my own imagination, I would like to post on this website readers letters of their own experiences of trying these meditations, and have a physical copy of their letters as proof from those readers, if anyone doubts the authenticity of my class and past-life therapy sessions.

But for those readers who accept my books, readers channelling or meditation experiences, and how they have helped the reader will be able to add new knowledge or experiences in a form of teaching others the limitless scope of these kind of development classes.

If you wish to use your letter on this website to promote or advertise your own group, website, healing centre, Astrology or Numerology society, or whatever, you can, I will include them with your letter.

But remember, if you are running your own development classes with a different criterion, or motives, like getting your student's to tune into objects, patient's or other student's.

And if your new students have read my volume 1, they may leave and spread the word that you are not following THE AWAKENING OF AN ANGEL way of developing student's.

I don't mean you can't receive your own meditations or exercises from your own Guides to give to your student's, I am referring to fundamental safeguards and wisdom behind the way the psychic senses are used.

I will only accept paper letters, to safe-guard against, any misunderstandings about what is copied onto this MAILBAG web-file, but also if you give permission, when eventually

THE AWAKENING OF AN ANGEL, AWAKENING CENTRES are all over the world, these letters can be displayed on the walls of these centres, as testimonials to how the volumes have helped the readers and students.

If you don't wish to share your letters on this website, but you still wish to write to me, that's OK. But for those who wish to share, before you sign your name at the end of the letter, just write

***I give permission to share this letter with the world.***

Then your signature →

Also, if you write on both sides of the letter page, I cannot display the reverse side on a wall, and I would have to photocopy the reverse side, which is not as authentic as the original ink, so if you use airmail paper, it won't be so heavy, as airmail is charged by weight.

For many reasons, mostly yours I will not be answering anyone's letters, if they are meant for sharing with the world.

The reason is readers should not be seeking my approval or advice, but developing links with their own higher-self, Guides or as a last resort other student's in their circle, to avail answers to be communicated through your other student's.

I also will not be critiquing, advising, or adding to, any letters destined to be shared with the world, for the same reasons.

If I receive letters arranging lecture tours, either nationally, or internationally, of course I may reply to these kinds of letters.

For those who wish to share, if you don't wish to use your own name, for privacy reasons, you can choose another name.

For the same reason if you are describing what you have experienced in your development circle, and it is necessary to mention other student's names, I will automatically assign new names to the transcript of your letter, prior to posting them on this website.

One of the reasons is, if you are relaying your own memories of the comments or what the other student's have channelled or said, in most cases we all have a selective memory, of what we are most impressed to remember, and the other student's will remember a different memory sequence of the same meditation experience.

So I would prefer a more complete and accurate transcript to share, so typing or writing a recording of the experience would be better.

But remember, if your letter is going to end up on an AWAKENING CENTRE wall, their first, or full names will be there for anyone to read.

If you wish your letter to end up on the wall of your closest AWAKENING CENTRE, and you wish to reveal your locality, City, Town, or Village, remember to include that in the letter.

Every letter that I read and find is a sharing letter, I will be asking my Higher-self and Guides, whether they approve it for transcribing, word for word into this format of book type pages, to be loaded onto a book file and dated.

And don't worry if you think my own mind reaction will influence whether to approve or not, any letter I read, this will not happen, as my higher-self or Guides can override any yea or nay what my mind might think.

Also, I am going to separate reader's letters and their meditation experiences into separate volume book-files. If a reader is writing to me of their reaction or meditation experiences from volume 1, I will load them under the title of

## THE AWAKENING OF AN ANGEL, VOL 1 MAIL

THE AWAKENING OF AN ANGEL VOL 1  
2014, READERS LETTERS AND MEDITATION EXPERIENCES.

THE AWAKENING OF AN ANGEL VOL 1  
2015, READERS LETTERS AND MEDITATION EXPERIENCES.

And for those readers who are writing about volume 2, or STUDENT SHELLY experiences I will set it up in the same way. This is so that if a reader has only read volume 1, it might be difficult understanding volume 2 reader's letters, describing reader's reactions or meditation experiences from volume 2.

Also if any of my approximately 150 previous students wish to send any letters of testimonials of their spiritual/psychic development or continued progress, these letters will be posted after their class records have been released on the website, as you might find their letters hard to follow if you haven't read their previous class experiences.

So student's of volumes 3, 4, 5 and 6's letters, will be posted later on the next website, covering these volumes.

I will date each letter as I receive them in the mail. Also if I move address, I will change my address listed on the home-page, so always check from this website the current address, before you post your letter. But if any mail is in transit with my old address, it will be redirected to my current address.

The first page of each yearly letter book-file, will list the dates and corresponding page number of each letter, and every three months I will post all the letters approved in that time period, like this.

So that you can quickly find the release of the latest download.

If I am overwhelmed with the amount of letters to type up, your letter may be delayed in when it is released on this website. As I do not have anyone helping me, if you wish to donate funding for a secretary to help me, or funding for travel expenses, for any lecture tours, cheques in the mail is preferred, as my bank details are still showing 0 contributions, which is strange after two and a half years, and we know how we trust our banks.

When I am guided to start releasing volume 3 onto another of my website's, eventually I will repeat setting up a similar MAIL-BAG for readers of volumes 3, 4, 5, and 6.

Readers letters are not only useful to help other readers, but I still do not receive any comments at my Spiritualist Church, about these volumes, so I am still in the dark as to if they have helped or enlightened anyone, who has read any of the volumes.

And how's this for a strange thing, when you type in

[WWW.THEAWAKENINGOFANANGEL.COM](http://WWW.THEAWAKENINGOFANANGEL.COM)

Google lists approximately 58 pages of websites referring to my website, but on the first page, most of the survey websites, who get them-selves listed on this first Google page, who deliberately mention my website, all give you 0 traffic, 0 ranking, 0 site worth.

But every time a reader logs onto a surveyor's website to look up my website statistics, but find my non-existent traffic details, these survey websites are advertising their own and other advertisers on their websites.

If you wish to know where you can find my website traffic and popularity, if you search,

**WWW.THEAWAKENINGOFANANGEL.COM GOOGLE INDEXED PAGES.**

On this Google page, on one of this pages references you will find a similar website name to mine, and after the website name this is what will be written,

### **THE GRAPHS OF TRAFFIC STATISTICS-TOP SITE**

If you click on this website you will find a website hosted by Topstie. And in the right hand column you will find my website, where you will be able to click on it, and my survey details will appear.

But as I type this, it was surveyed on 17/12/2013, so it might be a bit out of date, unless it has had an update.

As of the date of this blog, 20/6/2014.

Rating 97/100,.....936 Votes	Alexa Daily Unique Visitors....381
Est Website Worth....\$1,245	Alexa Daily Pageviews.....1,145
Google PageRank.....1	Google indexed pages.....1145
Outlinks.....11	

Which means prior to 2014, every four weeks this website received 10,668 unique visitors. So someone must like these books.

My Guides are telling me the reason I was guided to not put a traffic counter on my website, was to not draw attention to the media about the number of visitors who are reading these books.

As I am a big television watcher, I have had decades to observe the way the media slant or bag anything they do not believe.

If my books were a small 250 page book of a medium's recollection of their psychic or medium cases, then the media may have read their book to have an opinion to criticize or slant in the negative.

But because my books are so long, and cover so many diverse experiences, I doubt if any media would have the time to read them, so they would not likely be able to formulate any credible opinion if they wanted to criticize these books.

And it would have been harder to survey a book which is only being released in 5 parts over more than a year. This is one of the reasons I have not paid for any traffic surveys of my website.

The best way for people to learn about these books is from friends and relatives who have read sufficient to be able to explain to them what the aim of the books are. And because we know our friends and relatives more than we know strangers, this might help them to decide to start reading volume 1.

The same reaction may occur if a church group try some of the meditations, have great results and they tell other groups or circles of their experiences, which will have the same result of more people reading the volumes.

If I was selling these books then sceptics or the public might rationalise their beliefs that I am conning the world with an elaborate hoax for fame, money or power.

So readers letters may expand other readers awareness of the reality of what I and my student's have experienced over those years of classes. So if you want more people to become aware and accepting of all this, a letter from you might help.

And if you find esoteric censorship from the UK government is blocking my website, you can always copy my books and blogs onto a disc or flash-drive and mail them or give them to your friends and relatives.

I have noticed my website is now so well known that even if you type THE AWAKENING OF AN ANGEL or RAYMOND WILLIAM SHORE my website details come up on the screen, which my name might by-pass any future censorship.
